Description

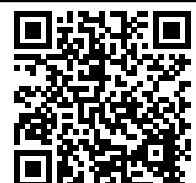

An impressive mahogany coal box and brass shovel with reeded scroll handle and metal lining standing on gilt paw winged feet. The bowed cover is mounted with a classical mythological winged creature which encloses a swing handle in its mouth. The same creatures flank either side, together with acanthus leaves. The condition is good, this piece is in untouched condition, there are a few minor scratches, but as you can see from the photographs, these do not detract from the appearance of this superb box. A fabulous item to enhance any fireside. c.1870
