Antique silver half hunter pocket watch, chain and coin holder

Price

Sold**Item Reference: SA583634****Date of manufacture: 1910**

Description

Antique silver half hunter pocket watch, chain and coin holder. The watch has a $\frac{3}{4}$ plate stem-winding movement which is working nicely. The movement is protected by an inner hinged cover. The watch itself measures 50mm diameter excluding the winding stem and the loop. The case is silver and there are Continental hallmarks inside all three covers. The front cover has a small lens surrounded by blue enamel filled Roman numerals. There is the odd small mark to the case but overall the condition is good for an antique piece from the early 20th Century. The inner case back has a previous owner's initials. The winding crown pushes in to release the front cover which you then open with your thumb. Inside there is an acrylic lens which is in good condition. The white dial is in good condition and it has pin-set blued steel hands, including the special half hunter hour hand, a subsidiary seconds dial and an outer minute track. The watch comes with an antique silver double albert with each chain measuring 21cm long including the T-bar and the clasp. There is also an American sterling silver coin holder. The watch will be sent in a new presentation box.
