Date of manufacture: Georgian

Dimensions

Height = 186 cm (73.2")

Description

A quite exceptionally small round dial London longcase clock retailed by this well known partnership and with the movement by the famous Thwaites of London, numbered 5179. PLEASE NOTE – This clock is currently in an unrestored state but is in working order. Before delivery, the dial, movement and cabinet work will be restored in our workshops. It can be viewed in its current condition at our showrooms in Cherhill. Please find a brief description below. Please contact us for further information. The 8 day duration Regulator quality 5 pillar movement strikes the hours on a bell and with a round convex painted dial showing Roman numerals, matching brass hands and with the makers name, Ellicott & Taylor of London. Also with strike/silent facility above the number XII. The movement is stamped with the name THWAITES and is numbered 5179 which dates the clock to 1813. It also features a precision deadbeat escapement, matching brass weights and a substantial pendulum with a large brass bob and engraved rating nut. The unusually small cabinet work veneered in the highest quality mahogany veneer standing at just 6'1" with an excellent patina throughout and reeded brass inlaid c...
