Depth = 46 cm (18.1")

Description

Very high quality & unusually designed antique William IV period mahogany two section bookcase. It's all original, from the 1830-37 period & is in excellent condition. The front section is all flame mahogany, with diamond shaped bottom door panels & diamond shaped glazed doors. The inside shelves are adjustable top & bottom. There are square tapered Corinthian columns top & bottom with wonderfully carved capitals. The feet are also well carved & I like the way the bottom of the sides are cut out to allow for skirting boards, so allowing for the bookcase to sit closer to the wall. The top cornice has a prominent inverted breakfront shape with more carving. Please enlarge all the images to see all the amazing features, especially the prominent bottom door panels & the columns. The top & bottom cupboards have working lock. The mahogany grain is magnificent all over & this bookcase comes apart into two sections. Width – 38 inches, 97 cm Depth – 18 inches, 46 cm Height – 80 inches, 204 cm
