## Description

Gents 1950s Doxa wrist watch. The watch has a Swiss hand-winding movement, signed twice with the Doxa name, which is working nicely. The watch measures 33mm diameter excluding the winding crown and the lugs. The case is plated and has a stainless steel screw-on case back. The case is in good condition. The writing on the back of the watch states that the watch is waterproof but, as with any vintage watch, it should be kept away from water and moisture. The lens is in good condition. The signed dial is in good condition, just a little marking by number 10. Original hands, centre seconds and outer minute markers. A new leather strap has been fitted. The watch will be sent in a new presentation box. Free worldwide shipping
