**Date of manufacture: 1930**

## Description

1930s Classic full hunter pocket watch. The watch has a Swiss 15-jewel stem-winding pocket watch which is working nicely. The movement is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is gold plated and was made in England by the Dennison Watch Case Company, a prolific manufacturer of cases for various watch makers. The case is in good condition with just a very slight indentation to the front, but you have to look closely to see it. The winding stem pushes in to release the front cover. Inside there is an acrylic lens which has a little marking but is very acceptable. The white enamel dial is in lovely condition. The watch will be sent in a new presentation box. Price includes worldwide postage
