

SA592532

Antique silver Omega half hunter pocket watch

Price

Sold**Item Reference: SA592532****Date of manufacture: 1910**

Description

Antique silver Omega half hunter pocket watch. The watch has a stem-winding movement which is working nicely. The movement is signed with the Omega name and the serial number 4580087 dates it back to around 1914. The movement is protected by an inner hinged cover. The watch measures 48mm diameter excluding the winding stem and the loop. The case is silver and there are Continental hallmarks inside all three of the covers together with the early Omega logo inside the back cover. There are some dings to the case, mainly to the back and a few to the side. The front cover has a small lens surrounded by enamel filled Roman numerals; there is some enamel loss if you look closely. The winding crown pushes in to open the front cover. Inside there is an acrylic lens which is in good condition. The enamel dial is in good condition and has blued steel hands, a subsidiary seconds dial and an outer minute track. The watch will be sent in a new presentation box. Free worldwide shipping
