Description

1920s Dimier Freres & Cie pocket watch and chain. The watch has a Swiss stem-winding movement, with 15 jewels, which is working well. The movement has the DF&C and it is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is nickel and is in nice condition with only a few small "dings" to the back. The acrylic lens is in nice condition with only the odd minor mark from use. The white dial has a couple of faint hairline cracks although not over noticeable to the naked eye. The watch has its original blued steel Breguet style hands. The watch comes with a fancy single albert, 29cm long including the T-bar and the clasp. The watch and chain will be sent in a new presentation box. Price includes worldwide postage
