Description

Antique Waltham full hunter pocket watch, 1899. The watch has a stem-winding movement, AWCo grade which was made in low numbers with just 8900 being made in 1899/1900. It is working nicely. The movement is fully signed and the serial number 9,384,462 which dates it back to 1899. The watch measures 52mm diameter excluding the winding stem and the loop. The case is gold plated and was made by the Dennison Watch Case Company, a prolific manufacturer of cases for various watch makers, and they had a particularly close business relationship with Waltham. The case is in good condition, just a little marking to the edge but nothing serious. The winding crown pushes in to open the front cover. Inside, the acrylic lens is in good condition, as is the signed white dial. The watch will be sent in a new presentation box. Price includes worldwide postage
