Description

A top quality oriental painted cabinet depicting life and showing birds and symbols of day to day life. All the detail on the panels is hand painted with the finest of brushes both on all the outside panels as well as inside the doors. The onlay decoration is all finished in hand carved coloured soapstones and soft marble and is then painted on top with more detail. The cabinet is telling a story. This cabinet dates from 1900-1920 and is in good condition for its age. With plenty of open storage inside. There are five small drawers to the front and the top cabinet separates and lifts off the base section for ease of moving. The black painted finish is performed on top of a strong plaster mix which is applied to the wood for a smooth finish prior to painting. There are a lot of areas that are finely painted to mimic an inlay of mother of pearl. MEASUREMENTS 58 INCHES HIGH X 42 INCHES WIDE X 23 INCHES DEPTH.
