English $\frac{3}{4}$ plate half hunter
pocket watch & albert

Price

Sold

Item Reference: SA595710

Date of manufacture: 1910

Description

English $\frac{3}{4}$ plate half hunter pocket watch and albert. The watch has a $\frac{3}{4}$ plate hand-winding movement which is working nicely. The movement is protected by an inner hinged cover. The watch measures 52mm diameter excluding the winding stem and the loop. The English case is gold plated and it was originally guaranteed to wear for 20 years which is a good sign of quality, and the case is still in super condition today with just light surface marking, nothing serious at all. The front cover has a small central lens surrounded by enamel filled Roman numerals. The winding crown pushes in to open the front cover. Inside, the lens is in good condition, as is the white enamel dial with original blued steel hands, a subsidiary seconds dial and an outer minute track. The watch comes with a double albert, slightly yellower in colour than the watch which is normal as the amount of added copper at the time of manufacturer did vary, with each chain measuring 19cm long including the T-bar and the clasp. The watch and chain will be sent in a new presentation box. Free UK and worldwide postage
