Description

A tidy brass fender from around the turn of the century. A couple of dinks as you might expect over the last 100 years but overall in pretty tidy condition. A good shape in this fender and in a clean state. Not repolished, intentionally, it is all correct and also looks the part. Internal measurements are 23cms deep and 115 wide. External are shown below. You certainly do not have to pay a lot of money with us, at £175.00 its the cheapest we can see on the site for a similar style and age. Give us a call to discuss 01565 874075. We can organise a carrier to most areas.
