Depth = 1.9 cm (0.7")

Description

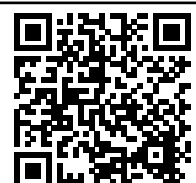

A very glamorous magnifying glass made from a white metal (unmarked but tests as silver) with engraved decoration and the folding handle with a black stone inset. Either side of the lens are two semi-circular supports so that the glass was not damaged on any surface (a few minor scratches to original lens). The magnifier is in good condition with a good magnification. I have included the worn case which has clearly done its job over the years protecting this lovely piece. Excellent condition the magnifier once opened measures 5 1/8" x 2 1/8"; the case measuring 2 5/8" x 2 1/4" x 3/4" thick. Dating to c.1920 / 1930 and continental in origin.
