Description

Antique Omega gun metal pocket watch. The watch has a stem-winding movement which is signed with the Omega name and the serial number 4,663,334 dates it back to around 1914. The movement is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding crown and the loop. The case is gun metal with rose gold plated highlights. Overall the condition is good for such an early piece, light surface marking and a little rubbing to the rose gold plate but overall very acceptable. The watch glass is in good condition. The signed dial has some faint cracks to the top and you have to look quite carefully to see them. The watch comes on an unused vintage leather albert. The watch and albert will be sent in a new presentation box. Free UK and worldwide postage
