Description

This very heavy and well made Victorian cast iron doorstop, or door porter as they used to be called, is in very good condition and weighs 4.5kgs. It measures 29cm in height, the back is 18.5cm and the front of the angled base is 16cm; it is approximately 6cm thick. It still has the original paint and the soft gold/brownish colour shows the details of the lion, his tail and the rope effect handle. It is much more attractive in real life than the photos. Postage and packing for the UK mainland only is included in the price, and for outside areas of the UK or abroad, please contact us for a delivery quote. Thank you.
