Description

A handsome cased set of solid silver salts with spoons. All of the pieces are fully hallmarked for the Birmingham Assay Office with a date mark of 1908 (the date mark is slightly worn but still identifiable). The silversmith's maker's mark is clearly visible for A&J Zimmerman on each of the Salts and for Charles Wilkes on each spoon. Each salt is a charming design with fluted sides rising from the most attractive pedestal base. Each of the salts has a blue glass liner. The spoons are a nice neat design with no engraving. All the items fit into the original presentation case. Condition: This set is in great condition. The inside of one of the salts is slightly tarnished (This sits underneath the blue liner). One of the fastening strings inside the case that holds one of the spoons is broken. Hallmarks and maker's marks: Birmingham 1908 by A&J Zimmerman and Charles Wilkes. Measurements: Height of each salt: 3.8 cm approx. Combined weight of all items: 277 grams approx.
