

SA599351

1921 Cyma silver pocket watch and chain

Price

Sold**Item Reference: SA599351****Date of manufacture: 1920**

Description

The watch has a Cyma stem-winding movement which is working nicely. The movement is protected by an inner hinged cover. The watch measures 52mm diameter excluding the winding stem and the loop. The case is silver and there are hallmarks inside the two case backs for Birmingham 1921 together with a case maker's mark for Aaron Dennison, a prolific case maker who supplied various watch makers. The case is in good condition with just the odd minor surface mark, nothing serious at all. Engine turned detail to the back with a vacant cartouche to the centre. The watch glass has a few minor marks but overall very acceptable. The white dial is in lovely condition with original blued steel hands, a subsidiary seconds dial and an outer minute track. The watch comes with a silver double albert with each chain measuring 21cm long including the T-bar and the clasp. The albert is fully hallmarked including each of the links having the lion passant mark. Also included is a silver and enamel fob, a 1930-31 medal from Birmingham & District Works Football Association. The watch and chain will be sent in a new presentation box. Free UK and worldwide postage
