Antique full hunter pocket watch and chain

Price

Sold**Item Reference: SA599410****Date of manufacture: 1910**

Description

Antique full hunter pocket watch and chain. The watch has a Swiss stem-winding movement which is working nicely. The movement is protected by an inner hinged cover. The watch itself measures 50mm diameter excluding the winding stem and the loop. The case is gold filled. There are some small surface marks just from years of use, and four shallow pin prick sized dings to the back, but overall the condition is good for an antique piece. The winding crown pushes in to open the front cover. Inside, there is an acrylic lens which is in good condition. The dial is in very nice condition with blued steel hands, a subsidiary seconds dial and an outer minute track. The watch comes with a rolled gold double albert, with each length of chain measuring 21cm long including the T-bar and the clasp. The watch and chain will be sent in a presentation box.
