Description

Fabulous 1930s Art Deco ceiling light that sits flush to the ceiling. Wonderful design that can't be mistaken for any other era, segmented panels that together give a fan shape with slightly scalloped edges. The glass is a sepia tone and slightly frosted with clear glass lines defining the overall shape. The shade is in very good condition but does have some chips that are hidden completely when inside the chrome gallery mount. The chrome stepped gallery shows some signs of age - see pics, again when in situ you can't see this. Fully wired for the UK /EU . A great looking light that gives a good impact both switched on or off. Ideal size for entry ways, porches, bathrooms and corridors or small bedrooms perhaps.
