Depth = 64 cm (25.2")

Description

Larger scale mid C19th Victorian period carved walnut framed stool. Elegant serpentine outline square stool raised on carved cabriole supports with acanthus leaf carved detail to the knees and terminating with scroll feet. The serpentine sides of the frame each centred with a carved scroll detail. Well-chosen grade of figured walnut which has achieved a rich colour and patina. In good, as found, original 'country house' condition, covered in its apparently original blue voile cloth upholstery and toned braid, with some minor historic marks and stains. A useful scale square-form stool with an almost flat upholstered top which would work well as a coffee table or drinks table in a reception room. Minor evidence of extinct and treated woodworm to the underside of the frame. H 18" W 24" D 24" England c.1860

Internal Ref: ML 1902
