Description

Antique Waltham Bond Street pocket watch, 1908. The watch has a stem-winding movement, Bond Street grade, which is working nicely. The movement is fully signed and the serial number 17,225,812 dates it back to 1908. The movement is protected by an inner hinged cover. The watch measures 48mm diameter excluding the winding stem and the loop. The case is gold plated. The case is a little tired, there are general surface marks from use and some little "dings" to the back. The watch glass has light marking, nothing too detrimental at all. The signed enamel dial has a few hairline cracks but they are faint. Blued steel hands, a subsidiary seconds dial and an outer minute track. The watch will be sent in a new presentation box.
