Description

A tall "A" type Bulle clock with brass tubular column. This is a nice early example with a serial number of 4424 dating to around 1921. It has the original glass dome and plaque to the base 'British Horo-Electro Company 109 Kingsway, London W.C.' The original dial in excellent condition with skeltonised centre. The Pendulum is a coil which swings over a curved magnetic bar with 3 poles and an electric current made via a battery in the base. From Kembery Antique Clocks Ltd. you can expect a genuine clock that is in full working order and sole with 12 months guarantee. Please contact us for delivery information.
