Date of manufacture: 1910

Description

An antique Waltham full hunter pocket watch. The watch has a stem-winding movement grade 610 which is working well. The movement is signed and the serial number 18223716 dates it back to 1912. The movement is protected by an inner hinged cover. The watch itself measures 50.7mm diameter excluding the winding stem and the loop. The case is 10ct gold filled and is the Moon model made by the Dennison Watch Case Company. It was completely normal for the movement and case to originate from different sources, to be assembled and subsequently retailed. The case is in nice condition with just some minor wear to the edges. The front cover has monogrammed initials. The winding crown pushes in to open the front cover. Inside there is a glass lens which is in nice condition. The signed white enamel dial is in nice condition. The watch has its original blued steel hands. The watch will be sent in a new presentation box. Price includes worldwide postage
