Description

Gents 1950s Wittnauer wrist watch. The watch has a Swiss 17-jewel automatic movement, 11 ARB, which is working nicely. The watch measures 31mm diameter excluding the winding crown and the handsomely shaped lugs so it would suit a slimmer wrist. The case is 10ct gold filled and it is in lovely condition. The screw-on case back is stainless steel, it has some scratching towards the edge of the back, probably from a tool that has slipped. The lens is in good condition. The signed dial is in its original finish which has some darkening but overall a pleasing appearance with dauphine shaped hands, centre seconds and outer minute markers. A new leather strap has been fitted. The watch will be sent in a new presentation box. Free UK and worldwide postage
