Description

Gents large 1950s Cauny wrist watch. The watch has a signed 17-jewel hand-winding movement which is working nicely. The watch is a good size at 37.5mm diameter excluding the winding crown and the lugs. The case is gold plated. There is the odd mark and the odd patch of wear but nothing too serious. When the stainless steel case back is removed, it reveals small patches where the plate has come off, all as shown in the photos. The case back has some unevenness. The lens is in good condition. The signed dial is the real star of this watch. It is in its original finish with concentric rings running through the numbers and almost a damask style finish to the centre. All in beautiful condition with original hands, a subsidiary seconds dial and outer minute markers. A new leather strap has been fitted. The watch will be sent in a new presentation box.
