Description

Gents 1950s Roamer Rotopower wrist watch. The watch has an automatic movement which is working nicely. The watch measures 34mm diameter excluding the winding crown and the lugs. The case is stainless steel and it is in good condition. The signed case back also states that the watch is waterproof but, as with any vintage watch, it should be kept away from water and moisture. There are various brevet (patent) numbers to the case back. The winding crown is signed RW. The lens has two or three small marks to the edge but the main face is in good condition. The signed dial is in lovely original condition with original hands, centre seconds and outer minute markers. A new leather strap has been fitted. The watch will be sent in a new presentation box. Free UK and worldwide postage
