Description

Silver Buren half hunter pocket watch, 1924. The watch has a signed Swiss 15-jewel stem-winding movement which is working nicely. The movement is protected by an inner hinged cover which has some scratching. The watch measures 45mm diameter excluding the winding stem and the loop so a little smaller than a standard pocket watch which is around 50mm. The case is silver and there are hallmarks inside all three covers for London (import mark), 1924 with an importer's mark for William Sparrow of Buren. The case is in beautiful condition and the engine turned detail is still nice and crisp. The front cover has a small lens surrounded by enamel filled Roman numerals. The winding crown pushes in to open the front cover. Inside there is an acrylic lens over a white enamel dial which is in good condition. The watch will be sent in a new presentation box.
