Description

Mid 18th century George II Cuban mahogany tilt top tripod table. Gun Barrell stem with early type cabriole legs with original high castors. The top is a two piece top of gorgeous timber. When I purchased the table the block had been screwed down as the catch was broken, we have unscrewed the block and fitted a period replacement brass catch. Everything is original on the table including the bearers underneath and it is NOT a marriage. The table is a very nice colour with good patination and waxed finish. SIZE; 23" diameter top. 29 1/2" high CIRCA; 1760 - 1770
