Description

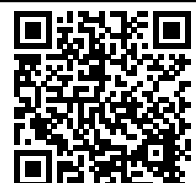

A pair of cast iron gilded Girandoles with clear registration marks on both dating them to circa 1897. They are both the same colour- the camera light makes them appear different. They measure 37cm in length and about 24cm at the widest part, and they weigh 1.5kgs each and there is a clear registration no: 299631 on the back of one - see photo 6. The original gilding on the iron frames is worn in places and we suspect the original candle holders were lost and replaced later with those shown here. The candle holders had been painted white and we've had them polished back to brass which will darken over time. Postage and packing within the UK mainland only is included in the price and for outside areas or abroad, please contact us for a delivery quote.
