Description

Gents 9ct gold Rotary wrist watch, 1964. The watch has a 21-jewel Swiss hand-winding movement which is working nicely. The watch itself measures 33mm diameter excluding the winding crown and the lugs. The case is 9 carat gold and there are hallmarks on the inside of the case back for London 1964. The case is in good condition. There are the light remains of an inscription to the back of the watch. The lens is in good condition. The signed dial is in its original finish with original hands, a subsidiary seconds dial and an early form of quickset date where the hands are moved backwards and forwards between 12 midnight and 9.50pm until the desired date is reached. A new leather strap has been fitted. The watch will be sent in a new presentation box.
