Antique Cyma pocket watch and albert

Price

Sold**Item Reference: SA610376****Date of manufacture: 1920**

Description

Antique Cyma pocket watch and albert. The watch has a stem-winding movement which is working nicely. The movement is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is gold plated and was made by the Dennison Watch Case Company, a prolific manufacturer of cases for various watch manufacturers. The case has the odd minor mark but nothing serious at all, and overall is in lovely condition. The glass is in good condition. The signed enamel dial has a couple of faint hairline cracks radiating out from the dial centre. Blued steel hands, a subsidiary seconds dial and an outer minute track. The watch comes with a charming single rope twist albert, 42cm long including the clasps. There is also a later 1947 silver gilt medal fob for ballroom dancing. The watch and albert will be sent in a new presentation box.
