Item Reference: SA610691

Date of manufacture: 1950

Description

Gents 1959 Bulova wrist watch with diamond detailing. The watch has a high grade quality 23-jewel automatic movement, with six adjustments, which is working nicely. This particular calibre of movement, 10BZAC, was made from 1959 to 1963. The watch measures 34mm diameter excluding the winding crown and the lugs so a good wearable size. The case is 10kt gold filled and is in great condition, just light surface marks but nothing serious at all. The shaped lugs give the watch fantastic character, it really is a very handsome piece. The screw-on case back states that the watch is waterproof but, as with any vintage watch, it must be kept away from water and moisture. Original winding crown signed with the Bulova name. The signed dial is in super original condition... the interesting combination of numbers, markers and real diamonds along with the concentric circles to the centre make this a very special piece. A new black leather strap has been fitted. The watch will be sent in a new presentation box.
