Description

Circa 1910-1930 a fine quality old GEC (General Electrical Council) desk lamp clearly marked on the original weight inside the base with the letters GEC and No 1. It came to us with the shade in the main photo, but we are happy to sell it without a shade, or with one of our own original glass lampshades shown here, although we have others on our website lancasterantiques.co.uk. Please check what is still available. The lamp measures 56cm in height and across the arm without the shade it is 19cm from the central column. It has been rewired using flex cable to UK specifications. Postage and packing within the UK mainland only is included in the price, and for outside areas or abroad please contact us for a delivery quote.
