Description

Antique 1906 Waltham fob watch . The watch has a hand-winding movement, grade 100, which is working nicely. The movement is fully signed and the serial number, 14,730,673 dates it back to around 1906. The movement is fully protected by an inner hinged cover. The watch measures 34mm diameter excluding the winding stem and the loop. The case is the 10ct gold plated Moon model by Aaron Dennison... the Dennison Watch Case Company made the majority of cases for Waltham UK. The case is beautifully detailed and the condition is very good. The watch glass is in lovely condition. The signed dial with bold numerals is in good condition and has its original blued steel hands, a subsidiary seconds dial and outer minute markers. The watch will be sent in a new presentation box.
