Description

This is a most attractive drop dial wall clock in working order with a stike on the hour. The case, as can be seen in the pictures, is in lovely condition with inlays around the face on the door and on the lower part of the drop dial cae. The finials are also in place, many have been broken or lost over the last 100 years or so. This clock has a lot of detail and all is in good order right down to the ornate pendulum bob. A great example and sensible price to.
