

SA615154

1930s Swiss pocket watch and chain

Price

Sold**Item Reference: SA615154****Date of manufacture: 1930**

Description

1930s Swiss pocket watch and chain. The watch has a Swiss stem-winding movement which is working nicely. The movement is protected by an inner hinged cover which has some marking towards the edge, where it has been opened in the past. The watch itself measures 50mm diameter excluding the winding stem and the loop. The case is nickel and it is in good condition, as is the glass lens. The white enamelled dial has one hairline crack running up from the centre but it is faint. Blued steel hands, a subsidiary seconds dial and outer minute markers. The watch comes with a double albert with each chain measuring 19cm long. The watch and chain will be sent in a new presentation box.
