Description

An absolute stunning and grand large polished bronze frame engraved to enhance its decorative appeal. The mirror to the front is bevelled and totally original and surrounded by a rope detailing and further back next to the pierced frame, a thicker chain decoration. There is a spherical shaped knob to open the mirror front revealing the double photo frame. The frames are both glazed and contain their original pictures. I assume this piece was specially commissioned, if you look closely at the top of the frame .. it incorporates two intertwined initials ... I think L & S. The entire piece is extremely heavy and solid, standing on its original folding easel stand. It is an impressive and important piece measuring 11" tall x 9 3/4" wide; the openings of each picture frame measure 5 1/2" x 4 3/4". Excellent condition.
