Description

Antique Omega ladies silver fob watch. The watch has a stem-winding Swiss lever movement which is working nicely. The movement is signed with the Omega logo on the regulator. The movement is protected by an inner hinged cover. The watch measures 34mm diameter excluding the winding stem and the loop. The case is silver and there are Continental hallmarks inside both of the case backs. The case is beautifully detailed and the initial V is in the cartouche to the back of the watch. The inside of the case back has the early Omega logo. The watch glass has the odd mark if you look closely. The exquisite dial really is the icing on the cake with this watch. There are a few hairline cracks but they are faint and you have to look carefully to see them. The watch will be sent in a new presentation box.
