Sold**Item Reference: SA619163****Date of manufacture: 1930**

Description

1930s Syren full hunter pocket watch. The watch has a good quality Thommen movement, made for Syren, which is working nicely. The signed movement is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case was made by the American Watch Case Company and is marked as being 'coin'... coin silver is an alloy of 90% silver and 10% copper. The case is in good condition and the engine turned detail to the front and back is still nice and crisp. The winding crown pushes in to open the front cover. Inside there is a watch glass which is in good condition. There is a line across the lens but this is a manufacturing issue, not a fault. The dial is in lovely condition and has blued steel hands, a subsidiary seconds dial and an outer minute track. The watch will be sent in a new presentation box.
