Antique silver Zenith Land & Water trench watch

Price

Sold**Item Reference: SA619646****Date of manufacture: 1910**

Description

Antique silver Zenith Land & Water trench watch. The watch has a high grade Swiss movement which is working nicely. The Zenith serial number 2217754 dates it back to 1918. The watch measures 35mm diameter excluding the winding crown and the fixed wire lugs. The case is silver and there are hallmarks inside the case back for Glasgow (import mark), 1916 together with a mark for the Zenith Watch Company. There is some marking to the back of the watch but overall the condition is very acceptable for a 1918 piece. The inside of the case back also has the serial number 2998576 which ties up with the number on the threaded section surrounding the movement, 576. The Land & Water came in two forms, one with a screw back and the other with a Borgel style case, as we have here, in an early attempt at water proofing watches. The watch glass has some marking, almost like a bloom, from where a lens sticker has been adhered for a long period of time but it only shows at certain angles. The majority of Zenith watches were sold through an international network of distributors but this particular model, the Land & Water, was only available for purchase at the high end London jewel...
