Description

A very good quality fully-fitted SURGEON'S BOX in fine and complete condition. The brass-bound mahogany case opens to reveal about 60 (sixty!) instruments, including: scalpels; catheters; a trepanning saw; clamps; many pairs of scissors; saws; a tourniquet and various other somewhat 'gruesome' implements! A number are in hallmarked silver, indicating they were for internal use. The mahogany case itself is in mint condition ~ due to it still being complete with its original outer tin box. ***This was almost certainly for use by a Surgeon Officer, for operations carried out in the field.

Internal Ref: 1986
