Description

Gents silver Omega wrist watch, c1930. The watch has a hand-winding movement, calibre 26.5 SOB with 15 jewels and two adjustments, which is working nicely. The movement is fully signed and the serial number 7211536 dates it back to around 1930. The watch measures 30mm wide excluding the winding crown and 30mm high excluding the lugs. The case is silver and there are hallmarks inside the case back for Birmingham 1929 with a case maker's mark for Aaron Dennison, a prolific producer of watch cases for various watch makers. The case is in good condition with just some gentle unevenness to the back and evidence of an earlier thread-through style strap. The lens is in good condition. The signed dial is in beautiful condition and has blued style hands in the Breguet style, a subsidiary seconds dial and an outer minute track. A later leather strap has been fitted. The watch will be sent in a new presentation box.
