Description

Lovely proportion Regency style breakfront bookcase with brass inlay and brass mounts, also one full width adjustable shelf. This is a great low bookcase that would fit nicely into a hall as a console table alternative, or work well on a landing for example as it has the swept, curved sides. The top is a superb piece on mahogany with good solid brass double banded inlay, below on the four upright supports, you will see further brass mounts and also the single full width adjustable shelf is also fronted with a brass inlay. Standing on typical gilded gadrooned feet with two further legs hidden away at the rear in the centre. You can see these on the photo showing the rear panels. I would say this is Regency in style, but most likely it has been made in the late c19th. This piece would also work rather well as a living room piece holding your tv and media equipment too perhaps! Measuring: 32" or 81cm high 43" or 109cm wide 14 1/2" or 37cm deep 64.5cm internal height 46cm width between two columns Delivery to most England, Wales and Scotland addresses at £55 +vat, but please send me your postcode if you are a bit remote or coastal as it could be more...or you are very wel...
