Description

Gents 9ct gold Bernex wrist watch, 1965. The watch has a Swiss hand-winding movement which is working nicely. The movement is signed with the Bernex name. The watch itself measures 32mm diameter excluding the winding crown and the lugs. The case is 9 carat gold and there are hallmarks inside the case back for Edinburgh 1965 with a case maker's mark for the British Watch Case Company. The case is in good condition, as is the lens. The signed dial looks good with just a little marking if you look very closely, nothing serious at all. A new leather strap has been fitted. The watch will be sent in a new presentation box.
