

SA621408

Antique Swiss pocket watch and chain

Price

Sold**Item Reference: SA621408****Date of manufacture: 1910**

Description

Antique Swiss pocket watch and chain. The watch has a stem-winding movement which is working nicely. If the back cover of the watch is opened, it reveals the top of the barrel which has images of medals together with details of the movement. The watch measures 49mm diameter excluding the winding stem and the loop. The case is nickel and it is in good condition, just a couple of couple of fairly small indentations to the hinged back. The watch glass is in lovely condition. The dial has a very small chip where the hour and minute hands meet but otherwise is in lovely condition. Visible balance in the style of the Hebdomas pocket watches. The watch comes with a single chain, 28cm long including the T-bar and the clasp. The watch and chain will be sent in a new presentation box.
