Gents Omega 30T2 wrist
watch, c1945

Price

Sold

Item Reference: SA621464

Date of manufacture: 1940

Description

Gents Omega 30T2 wrist watch, c1945. The watch has a hand-winding movement, 30T2 SCPC (centre seconds and shockproofing) which is working nicely. The movement is fully signed and the serial number 10,477,974 dates it back to around 1945. The watch measures 35mm diameter excluding the winding crown and the lugs. The case is stainless steel and it is in good condition, just light surface marks but nothing detrimental at all. The inside of the screw-on case back is signed with the Omega triangular stamp and the case reference is 2384-5 which is correct for the 30 T2 movement. The winding crown is the correct design but not signed so may be a replacement. The lens is in good condition. The signed dial has been professionally re-finished to a high standard. The hands are the originals but the infill has been removed over the years. A new leather strap has been fitted. The watch will be sent in a new presentation box.
