Description

1930s Omega pocket watch and chain. The watch has a stem-winding movement, calibre 37.6L.15P, which is working nicely. The movement is fully signed and the serial number 7,941,023 dates it back to the first half of the 1930s. The watch measures 47mm diameter excluding the winding stem and the loop. The case is stainless steel and it is in good condition with just the odd minor mark. The inside of the case back has the Omega logo. The watch glass is in good condition. The signed dial is in its original finish. Handsome blued steel hands in the Breguet style, a subsidiary seconds dial and outer minute markers. The watch comes with a single chain of the same period, 28cm long including the T-bar and the clasp. The watch and chain will be sent in a new presentation box.
