Sold**Item Reference: SA62243****Date of manufacture: 1890**

Description

A really very decorative magnifying glass which would look splendid on the grandest of desk-tops. The highly decorative handle is a good Victorian one, made from solid or sterling silver, with a cartouche each side, the front having a decorative "A" engraved on it. The silver ferrule is where the hallmark for Birmingham 1896 can be found. The magnifier itself is of course new, making quite usable today with a crystal clear lens and good magnification. A good large size measuring 7 3/4" in length, the glass having a diameter of 3 1/2". Item ID: 31624 ----- FREE Worldwide Registered Airmail; Insurance Optional.
