

SA623446

1924 Waltham Riverside railroad grade hunter watch

Price

Sold**Item Reference: SA623446****Date of manufacture: 1920**

Description

1924 Waltham Riverside railroad grade full hunter pocket watch. The watch has a railroad grade stem-winding movement, Riverside grade, model 1908, which is working nicely. The exquisitely patterned movement has gold jewel settings, an Ohlson 1908 patent regulator, and it is a 19 jewel movement (with five positions). The movement is fully signed and the serial number 24,606,516 dates it back to 1924. The movement is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is 10ct gold plated and was made by the English watch case maker Aaron Dennison, a prolific manufacturer who supplied various watch factories. Overall the case is in good condition, just a couple of slight indentations to the front but they are shallow. The winding crown pushes in to release the front cover. Inside there is an acrylic lens which is in lovely condition. The signed dial is in super condition and has blued steel hands, a subsidiary seconds dial and an outer minute track. The watch will be sent in a new presentation box.
