Description

Superb quality and condition late William IV to early Victorian mahogany breakfront wardrobe. Made from the very best of mahogany timbers of the period. Three door wardrobe in completely original and un-touched condition. Fully fitted interior as per the pictures. The cornice with very nice elegant carved decoration. All the original locks with working key. The two end hanging parts are wide enough for modern coat hangers. The two end parts also have their original shelf holders screwed to the sides so shelves could be fitted if hanging is not required. The wardrobe is in first class condition with no chips, missing veneer or repairs to the front, there is only one chip to the back corner of the plinth on one side. The only slight flaw is where the key has been rubbing on the end doors for years but this could be improved with polishing out if required. The wardrobe breaks down into 5 parts for moving. All the original blocks are present which makes it very easy to assemble then it is screwed together. SIZES; 73" wide at the base. 79" wide at the cornice. 22" deep at the ends, 27" deep in the middle. 84" high CIRCA; 1840 - 1850
